

CAREGIVER EDUCATIONAL SUPPORT GROUP

The Caregiver Education and Support Group will assist parents in developing an understanding related to trauma, the symptoms that occur following a trauma, how trauma impacts children of different age ranges, and the impact of trauma on families. The groups will focus on providing a safe place for caregivers to come together as a group to participate in activities and discussions that will support them in gaining the knowledge, skills, and confidence they need to help their families stabilize and recover from traumatic and stressful experiences.
